# SOLID WASTE FACILITY PERMIT

Facility/Permit Number:

10-AA-0004

**Legal Description of Facility:** All that portion of the west 2.135 feet of the northern half of the Southwest Quarter of Section 28, Township 11 South, Range 21 East, Mount Diablo Baseline and Meridian (MDB&M), lying south of the southerly right-of-way line of the Friant-Kern Canal; also that portion of the Northeast Quarter of the Southeast Quarter of Section 29, Township 11 South, Range 21 East, MDB&M, lying south of the southerly right-of-way line of the Friant-Kern Canal.

## Findings:

This permit is consistent with the County Solid Waste Management Plan. Public Resources Code (PRC), Section 50000(a)(1).

This permit is consistent with standards adopted by the California Integrated Waste Management Board (CIWMB), PRC, Section 44010, including all applicable Resource Conservation and Recovery Act (RCRA), Subtitle D requirements incorporated into Title 14, California Code of Regulations (CCR).

The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal as determined by the Local Enforcement Agency (LEA) except for a violation of CCR Section 17258.23. The LEA has issued Notice and Order No. 96-05, dated November 4, 1996, to the owner and operator which requires compliance with CCR Section 17258.23 and specifies compliance dates for the implementation of corrective action. A pre-permit inspection was conducted by the California Integrated Waste Management Board on August 28, 1996.

The State of California, Department of Forestry and Fire Protection, Fresno/Kings Ranger Unit has determined that the facility is in conformance with applicable fire standards as required in PRC, Section 44151.

A Notice of Determination was filed with the Fresno County Clerk on November 23, 1993.

A County-wide Integrated Waste Management Plan has not been approved by the CIWMB.

The County of Fresno, Public Works and Development Services Department (PW&DS), Development Services Division has made a determination that the facility is consistent with, and designated in, the applicable general plan. PRC, Section 50000.5(a).

The County of Fresno, PW&DS, Resources Division has made a written finding that surrounding land use is compatible with the facility operation, as required in PRC, Section 50000.5(b).

## 4. Prohibitions:

The permittee is prohibited from open burning; scavenging; and accepting any liquid waste, non-hazardous waste requiring special handling, designated waste, or hazardous waste unless such waste is specifically listed below and unless the acceptance of such waste is authorized by all applicable permits:

Temporary storage of hazardous waste inadvertently delivered and detected in the hazardous waste screening/exclusion program.

The permittee is additionally prohibited from accepting for disposal the following items:

Dead animals, infectious waste, hot or burning materials or wastes, asbestos (whether friable or non-friable), tires (except in accordance with CCR, Section 17355), and metallic discards (except in accordance with PRC, Section 42170 et seq.).

**Self Monitoring:**

In addition to the results of all self-monitoring programs as described in the RFI and the California Environmental Quality Act (CEQA) mitigation monitoring and reporting program described in other documents controlling this facility, the following programs shall be reported to the LEA and others as follows:

Program	Reporting Facility	Agency Reported To
Summary of public complaints received, regulatory notices received, and the operator's responses/corrective actions taken.	Quarterly <sup>1</sup> and Upon Request of LEA	LEA <sup>2</sup>
Summary of entries in Log of Special/Unusual Occurrences (e.g., fires, injuries, property damage, accidents, explosions, incidents regarding hazardous wastes) and operator's responses/corrective actions taken.	Quarterly <sup>1</sup> and Upon Request of LEA	LEA <sup>2</sup>
Alternative Daily Cover - Tarps must be inspected weekly to determine the ability to satisfactorily cover waste. Worn areas, tears, rips, etc. should be noted.	Quarterly <sup>1</sup> and Upon Request of LEA	LEA <sup>2</sup>
Weight/Volume Records showing the amount of refuse placed for deposit at the landfill.	Quarterly <sup>1</sup> and Upon Request of LEA	LEA <sup>2</sup>
Results of hazardous waste screening program (e.g., documenting the final destination of the HHW and the operator's procedures for handling the wastes).	Annually and Upon Request of LEA	LEA <sup>2</sup>
<sup>1</sup> = Reporting due by the 15th of the month following the end of the reporting period. OR else when due as specified by the controlling regulatory authority.		<sup>2</sup> = Plus reporting to all other local, state and federal regulatory authority with jurisdiction at the facility.

LEA Conditions: [NOTE: LEA conditions listed here shall be in addition to conditions of other documents controlling operation of this facility.]

This permit supersedes all other SWFPs previously issued for this facility. This permit reflects an increase in the average daily tonnage from fifty-one (51) tons/day to two-hundred four (204) tons/day and establishes a maximum daily tonnage of three-hundred fifty four (354) tons/day.

The operator shall comply with all State Minimum Standards for Solid Waste Handling and Disposal as specified in Title 14, CCR. The operator shall not operate this facility without possession of all required permits/regulatory approvals. The operator shall inspect the site at least once each day of operation to ensure compliance with all applicable standards/conditions/mitigations/permits/regulations.

The operator shall comply with all federal, state and local requirements and enactments including all mitigation and monitoring measures developed in accordance with any certified environmental document filed pursuant to PRC, Section 21081.6, and all administrative/enforcement orders of all regulatory agencies with jurisdiction at this facility.

The facility is permitted to receive the following nonhazardous solid wastes: construction/demolition, industrial, and mixed municipal.

The operator shall maintain a complete copy of this SWFP, of all other required regulatory permits and of all regulatory inspection reports, at the facility at a location readily accessible to facility personnel, LEA staff and other regulatory personnel.

Additional information concerning the design/operation of this facility shall be furnished upon request to the LEA and other regulatory agencies.

The operator shall notify the LEA in writing (with proposed amendments to the RFI), at least one hundred fifty (150) days in advance of proposed significant changes (as determined by the LEA), in the design/operation of the facility to allow for early consultation, completion of all required documents/due process review/filing and the completion of all related permitting processes. Such notification shall include changes (including new additions) of: processing/composting/baling/materials recovery facility (MRF)/transfer station and/or transformation facility, changes in permitted hours/days of operation, permitted tons/day per category, permitted traffic volumes/day per category, permitted total area, disposal footprint, maximum elevation, maximum depth of waste, and/or estimated closure year which may be later proposed for this facility.

Any owner or operator of this facility who plans to encumber, sell, transfer, or convey the ownership or operations of the facility to a new owner or operator, shall notify the LEA and the CIWMB, forty-five (45) days prior to the anticipated date of transfer.

The LEA reserves the right to suspend and/or modify operations at this facility when deemed necessary due to any emergency, potential health hazards, and/or public nuisances.

This SWFP is subject to review by the LEA and may be suspended, revoked or modified at any time for sufficient cause.

As outlined in Section 16 of this SWFP, the operator shall maintain at the facility, accurate daily records of the tonnage/day and number of vehicles/day per: incoming solid waste, incoming liquid septic waste, outgoing recovered material (per category); and an estimate (by weight, volume or count) of the total amount of recovered material (per category) stored on-site for brief periods of time. Such records shall be readily accessible at the facility to the LEA/other regulatory agencies.

As outlined in Section 16 of this SWFP, the operator shall furnish a written summary of all written complaints (including all regulatory notices such as: Notices of Violation, Notice and Orders, Clean-up and Abatement Orders) concerning the facility received by the operator during a quarter, and the operator's responses/corrective actions taken, to the LEA within fifteen (15) days of the end of each quarter.

- m. As outlined in Section 16 of this SWFP, the operator shall maintain at the facility, a log of special/unusual occurrences (S/U O). The log shall include, but not be limited to: fires, explosions, discharges of unusual waste, significant incidents of personal injury, accidents and/or property damage. Each log entry shall be accompanied by a summary of the responses/corrective actions taken by the operator to mitigate any negative impacts of each occurrence. Days without incidents of S/U O shall be noted with an appropriate negative entry for such days, such as: "No S/U O today". The operator shall maintain this log at the facility in a manner readily accessible to facility personnel, LEA staff and other regulatory personnel. A written summary of the log entries during a quarter shall be furnished to the LEA within fifteen (15) days of the end of each quarter.
- n. The operator shall maintain an LEA approved hazardous/prohibited waste screening/exclusion (load checking) program at the facility which will adequately protect public health and the environment from illegal on-site disposal of hazardous/prohibited wastes.
- o. The operator shall comply with the requirements of all applicable laws pertaining to employee health and safety including maintaining an up-to-date written CAL-OSHA Injury and Illness Prevention Program (IIPP) - (pursuant to Title 8, CCR). Such information shall be readily accessible at the facility for review by all facility personnel, LEA staff and other regulatory personnel. The IIPP shall include a comprehensive training plan, availability of all necessary on-site work/protection/safety equipment, and adequate on-site first aid supplies. Whenever personnel are at the facility they shall have immediate radio and/or telephone access to a 911 emergency dispatcher.
